Dear Friends,

I'm seeking the nomination to be the next Federal Liberal candidate for Lanark–Frontenac–Kingston. We deserve a Member of Parliament who actively listens and always has time to sit down with residents to hear their concerns. We deserve more than a part-time, career politician. We deserve someone who cares enough to ask what the needs of residents are and then fight for them in Ottawa.

Like you, I love our rural way of life. I want to see it preserved so our communities can grow, thrive and prosper for future generations to come. The only way to achieve this is to have serious rural voices in Parliament. I believe the people of LFK deserve a fair shake in Ottawa, and I'm determined to make sure we are not overlooked. I'm committed to ensuring our government and its policies reflect the rural values we believe in, so our children don't have to move away to make a life and a living, but can choose to work and raise their families right here at home.

We moved the needle forward significantly in 2021, but there's still work to do. I've got my sleeves rolled up and I'm committed to doing the hard work. And with your support, we can win and bring real representation and leadership back to LFK!
